

Vikramjit Mukherjee, MD, FRCP (Edin)
Chief, Critical Care, NYCH+H/Bellevue
Special Pathogen Program Medical Director

Vikramjit Mukherjee is an intensive care physician who serves as the Chief of Critical Care at NYC Health + Hospitals/Bellevue. He also is the Medical Director of Bellevue's special pathogen program. Dr. Mukherjee is an Associate Professor of Medicine in the division of pulmonary, critical care and sleep medicine at the NYU Grossman School of Medicine. Dr. Mukherjee serves as co-Principal Investigator for NETEC, as a steering committee member for the National Special Pathogens System of Care, and as an executive member of the Task Force for Mass Critical Care. His research interests include special pathogen preparedness and mass critical care.
